The European  
eInfrastructures  
Observatory  
[www.enventory.eu](http://www.enventory.eu)

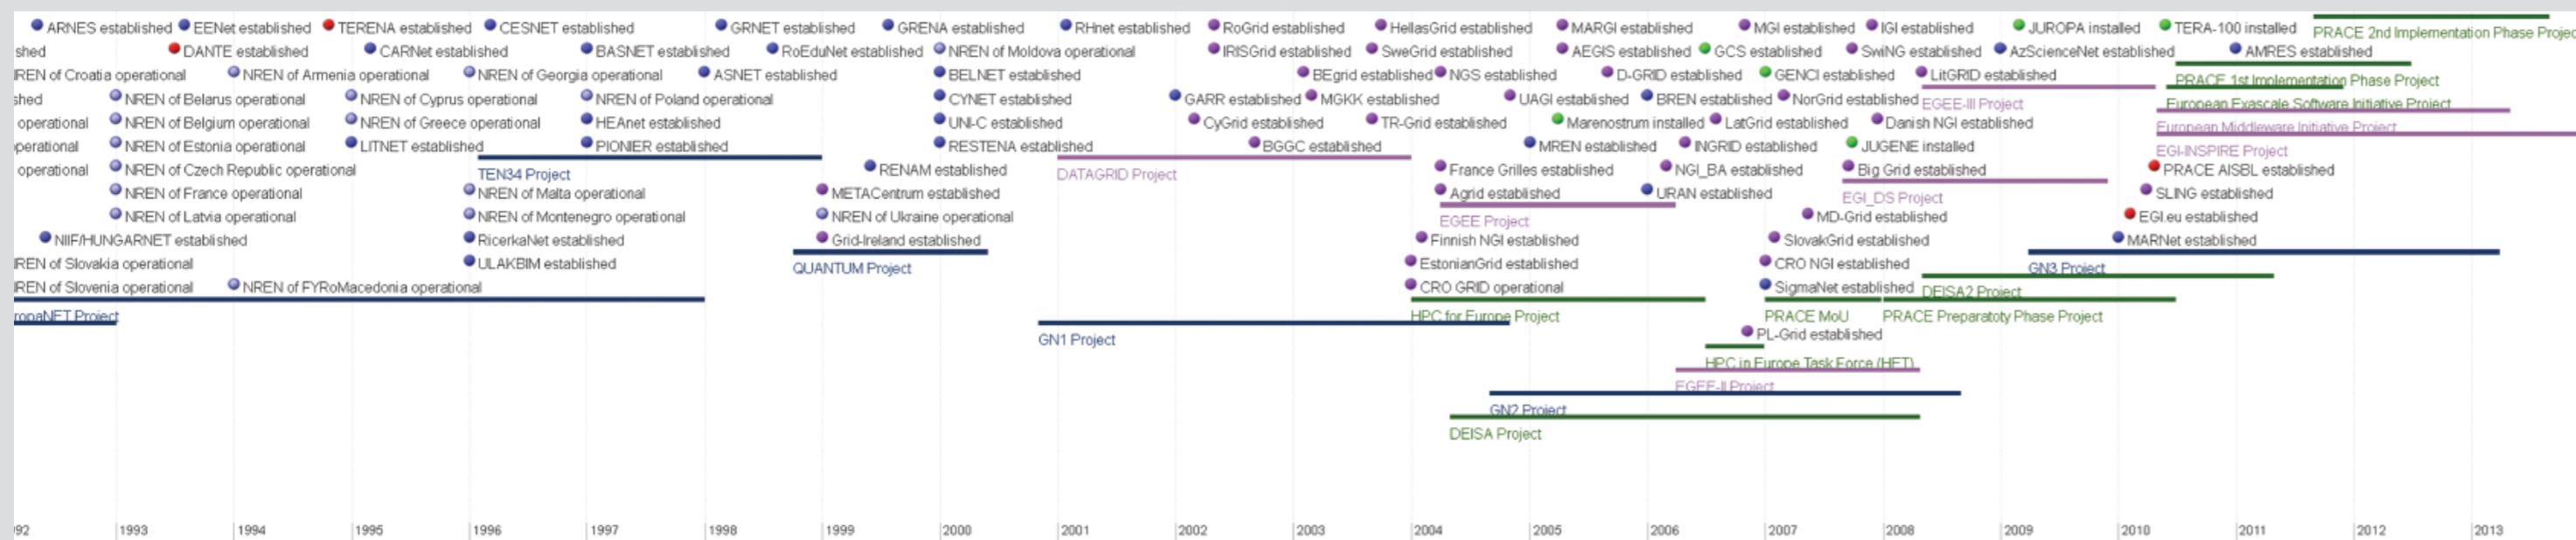

## Tell your story with the European e·Infrastructures Observatory!

### The European e·Infrastructures Observatory:

- Features a core set of more than **45 benchmarking indicators** as the baseline for monitoring e·Infrastructures' development progress, usage, impact and investments.
- Provides access to more than **10.000 individual figures** and other related data sets.
- Offers **7 intuitive, interactive and user-friendly visualisation tools** based on best practices in visualisation and representation techniques.
- Consolidates more than **18 months of stakeholders' feedback and consensus** on the structure and functionality of a world-class e·Infrastructures Observatory.

### The e·Infrastructures stakeholder will have access to:

- A multifaceted, multidimensional and polymorphic **panorama** of e·Infrastructures in Europe.
- An advanced set of monitoring and dissemination **tools**: regional mappings, graphs (bar charts, line charts, bubble charts), time-series trends, scatter plots, hierarchically-structured representations, custom-build composite indices, eagle-eye overviews of global e·Infrastructures organisations, interconnections of global scientific communities, timelines of e·Infrastructures success stories, overall developments and trends, and many more...

### The Research and Education Networking Timeline: a history of milestones

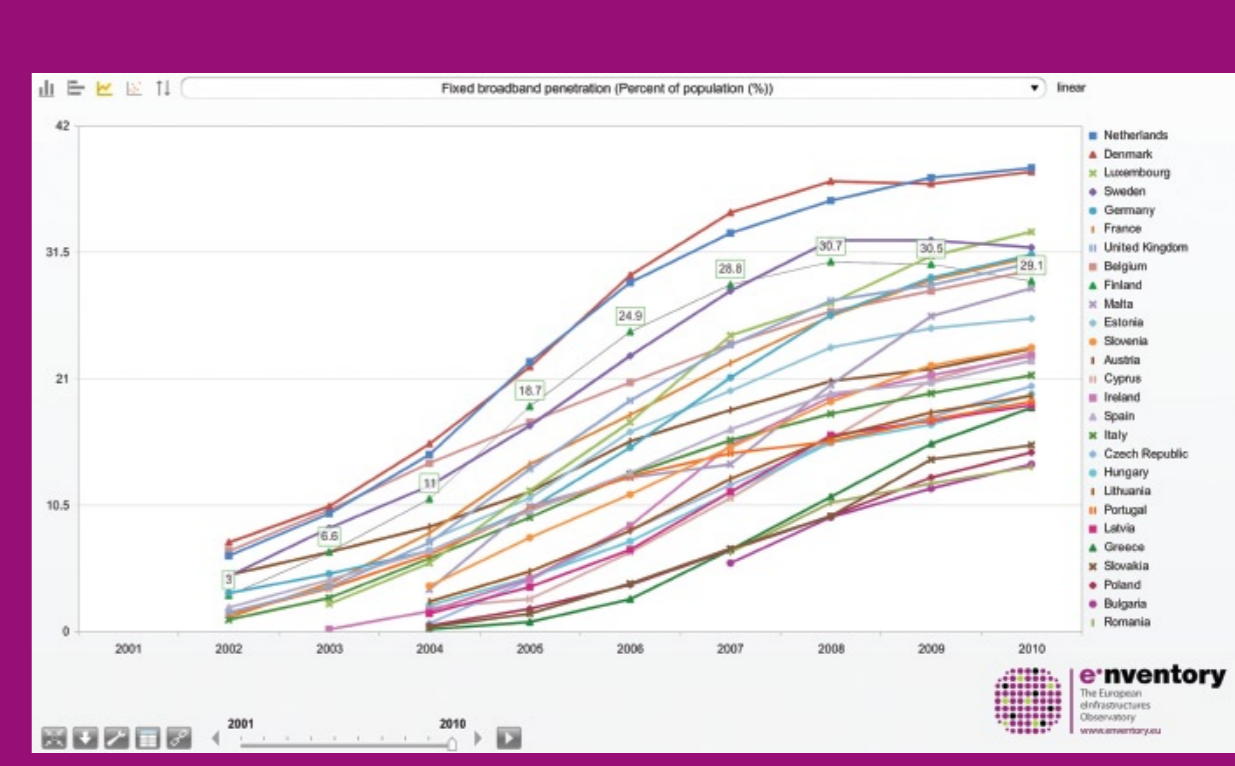

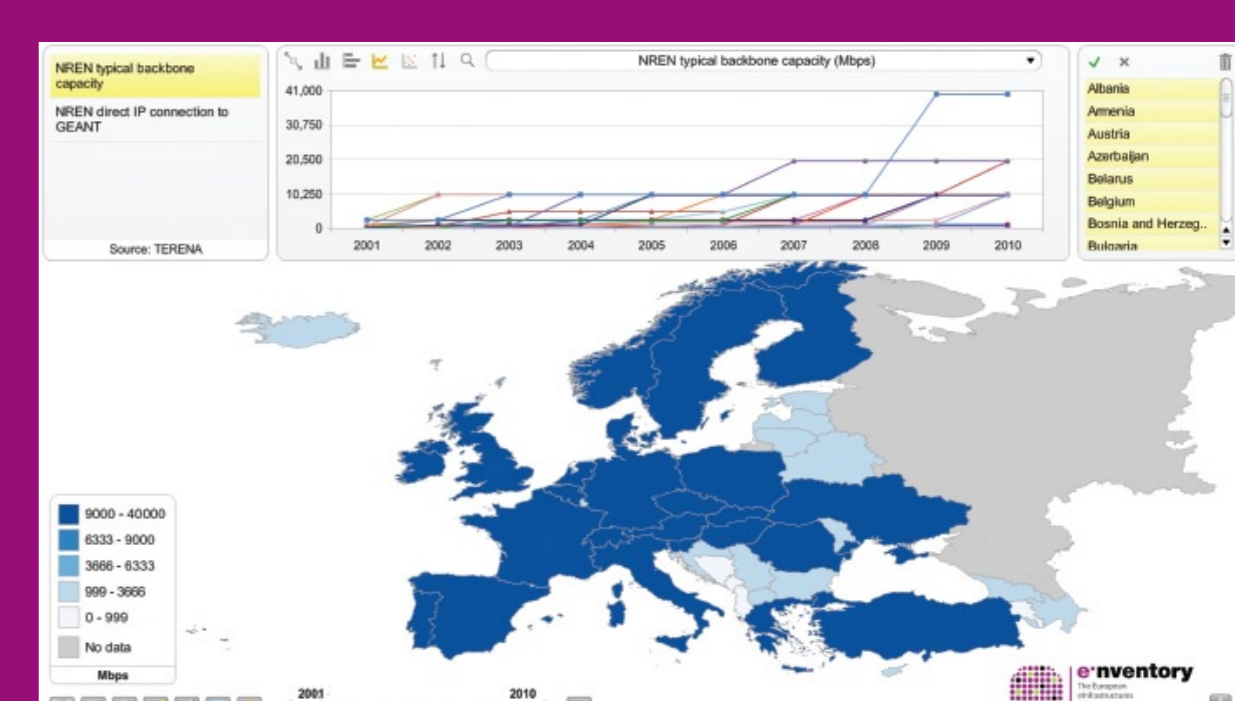

Left to right: Increasing needs (NREN IP traffic) vs. growth of R&D personnel vs. NREN budget

Research and Education Networking footprint: (left to right) GEANT, REN Organizations, Cross-border fibre

Screenshot of the e·nventory website interface showing navigation options like Welcome, Indicators Visualisers, Organisation Mapping, and Project Information.
